

# PrestaShop Virtual Product Combination {User Guide}

PrestaShop virtual product combination module provides the additional functionality of adding combinations to the virtual product. Furthermore, you can add different files for different combinations with the help of this module.

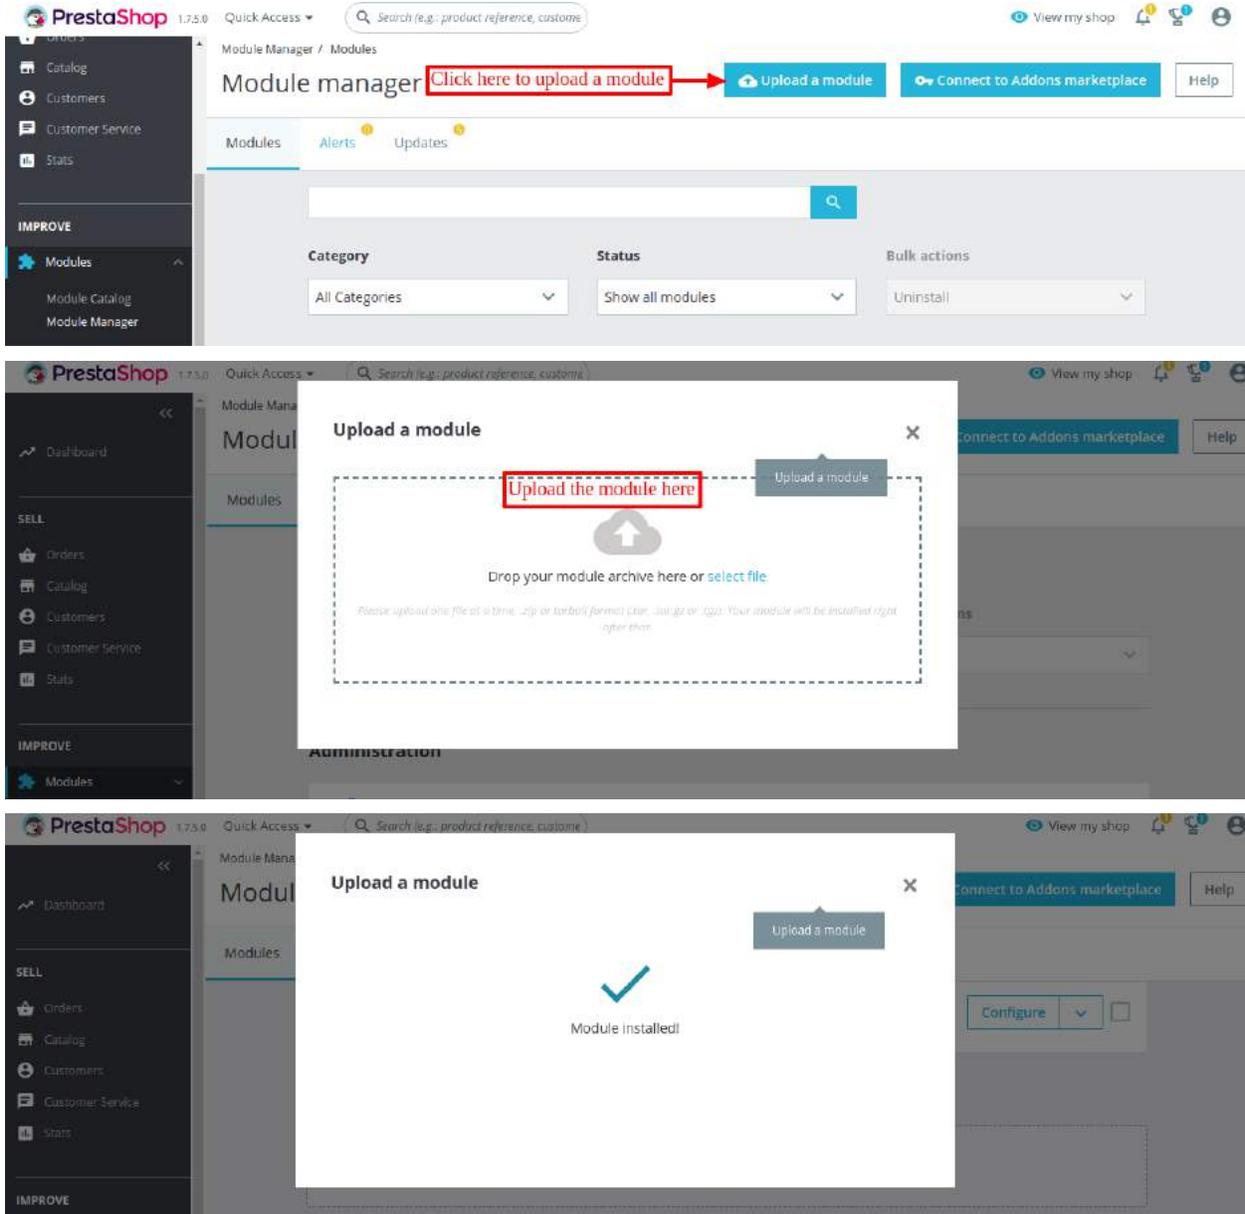

**PrestaShop Virtual Product Combination module is compatible with PrestaShop 8.x.x**

## FEATURES

- **The module is multi-shop compatible.**
- Create combinations of virtual products.
- An admin can associate different files with different combinations.
- Admin can edit/delete a combination.
- An admin can restrict the number of downloads for file associated with combination.
- Admin can also set expiry date for file associated with the combination after which customer will not be able to download the file even after ordering it.
- Admin can associate files of different types like zip file, text file, music files etc.

## INSTALLATION

1. Firstly, go to the module manager in the back office and click on 'upload a module'.
2. After that, drag and drop the module file or select the file from the system.
3. In this way, the module installation will be successful.

**NOTE-** There will be no problem while creating a virtual product with no combinations.

## Workflow For PrestaShop Version 8.1.X

For adding the combinations to the virtual product, the admin needs to enable combinations in the product page. Go to catalog > Products > Edit Product > Modules.

Product name: Hip hop Music CDs

€9.99 tax excl. €9.99 tax incl. (tax rule: 0%) 100 in stock

Admin can create virtual product with combination.

Enable combinations  Yes ← **Enable combinations for virtual product**

**Module to configure**

Virtual product with combination

Once enabled, the admin can now add combinations for a virtual product.

After the successful installation of the module, a new tab "Virtual Combination File" gets available under Catalog. From here, the admin can view a list of virtual products in the store and add file for the combinations.

(To create/edit combination, please [click here](#))

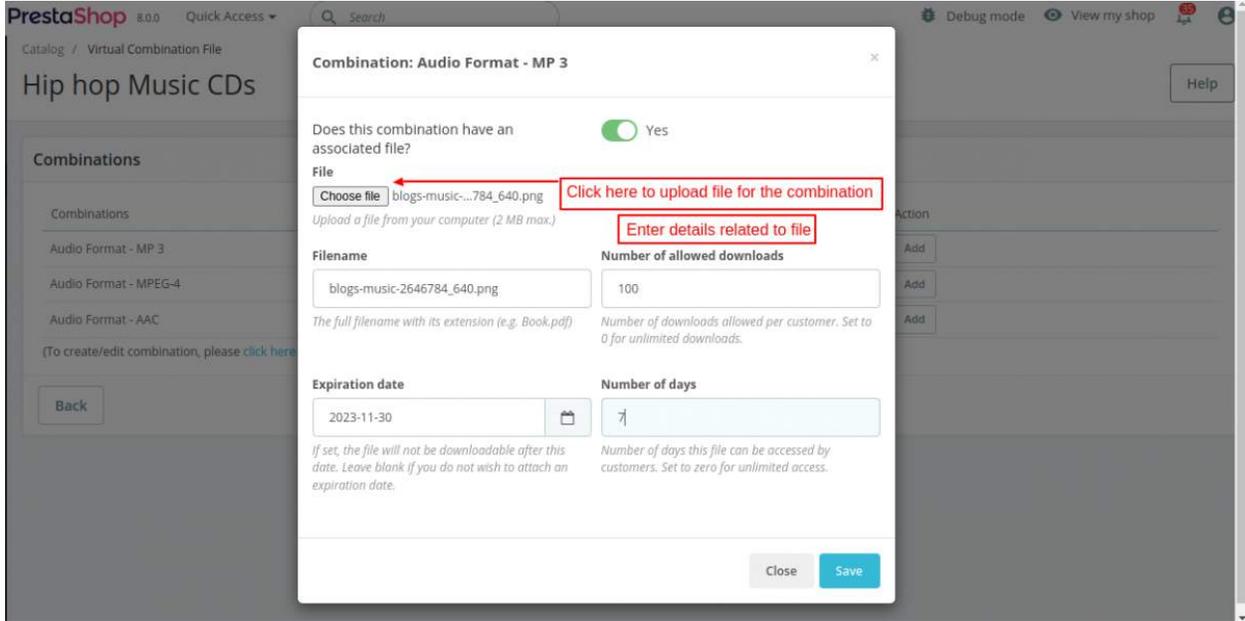

Back

Click here to associate file with combination

On clicking the add button, a popup appears on the page where the admin can:

- Upload file for a combination

- Specify file name
- Set number of downloads allowed per customer
- Set expiry date of file
- Specify number of days for which the file can be accessed by customers

**Note:** The workflow mentioned above is supported by PrestaShop Virtual Product Combination version 4.1.0 and above.

## Workflow For PrestaShop Version 8.0.0 and Below

After Successful installation of the module, an option to add the combination to the virtual product will add to the admin product addition panel.

### Manage your product combinations ?

To add combinations, you first need to create proper attributes and values in **Attributes & Features**. When done, you may enter the wanted attributes (like "size" or "color") and their respective values ("XS", "red", "all", etc.) in the field below; or simply select them from the right column. Then click on "Generate": it will automatically create all the combinations for you!

Combine several attributes, e.g.: "Size: all", "Color: red". Generate

**Bulk actions (0/6 combination(s) selected)**

<input type="checkbox"/>	Combinations	Quantity	Default combination
<input type="checkbox"/>	 Audio formats - MP3	<input type="text" value="50"/>	<input type="checkbox"/>
<input type="checkbox"/>	 Audio formats - MPEG-4	<input type="text" value="50"/>	<input type="checkbox"/>
<input type="checkbox"/>	 Audio formats - AAC	<input type="text" value="50"/>	<input type="checkbox"/>
<input type="checkbox"/>	 Audio formats - WAV	<input type="text" value="50"/>	<input type="checkbox"/>
<input type="checkbox"/>	 Audio formats - AIFF	<input type="text" value="50"/>	<input type="checkbox"/>
<input type="checkbox"/>	 Audio formats - AU	<input type="text" value="50"/>	<input type="checkbox"/>

## FRONT-END

After defining various combinations for a product at the back-end, the customer will have an option to select a combination out of the available options.

The screenshot shows a product page for 'JAZZ MUSIC' on a website named 'my store'. The navigation bar includes 'CLOTHES', 'ACCESSORIES', 'ART', and 'TOP RATED', along with a search bar. The product is displayed with a large image of a vinyl record and a 'NEW' badge. The price is \$12.78, with a note that tax is excluded. Audio format options include MP3, AAC, WAV, MPEG-4, AIFF, and AU. A quantity selector is set to 1, and an 'ADD TO CART' button is visible. Below the main image is a carousel of smaller product images. The right sidebar contains sections for 'Security policy', 'Delivery policy', and 'Return policy', each with an edit link. At the bottom, there are tabs for 'Description' and 'Product Details', with the description text: 'A collection of all time favourite 90's jazz music'.

Customers can proceed with shopping by adding any variant of the product to the cart & placing the order.
