This documentation is to help you regarding each step of customization and setup, please read the documentation and understand how these login forms are made, plus the way to edit them.

Please note that some basic coding knowledge is required to customize these forms, Wonderful is built using HTML5, CSS3, Bootstrap, jQuery, and JavaScript.

## How To Install Wonderful

1. Once you have downloaded the theme zip file, we have included ( Default & Wondertag ) inside "Wonderful" folder, inside these folders we have included 4 themes, simply choose your theme, and extract it.
2. Copy and overwrite "themes" folder from ./Welcome {NUMBER} and upload it to your root directly. Don't upload the ./Welcome {NUMBER} folder, only upload the "themes" folder inside it.
3. Please note that those themes are only supported for the default WoWonder theme & Wondertag theme.
